

The Marketing and Sales Academy for B2B Product and Service Markets

A series of practical marketing workshops for new and experienced marketers in B2B Product and Service Markets, designed to give you practical marketing know-how that you can implement.

The Academy

The Marketing and Sales Academy for B2B Product and Service markets offers a series of workshops with a high proportion of practical learning opportunities, following the principle of

Learn → Practice → Apply → Implement

- **Learn** the concept, model or tool
- See how others have **practised** it's application successfully
- **Apply** the concept, model or tool to your own business
- Decide how you can **implement** it in your business

The Marketing and Sales Academy workshops are designed specifically for new and active marketers, they are led by experts with practical experience.

- A range of workshops designed to meet the needs of those new to marketing, those from a non-marketing background and for more experienced marketers.
- Run by marketing experts with hands-on experience.
- Case studies from the industry and from other relevant markets.
- Take-away checklists, computer tools and marketing models.

The Marketing and Sales Academy for B2B Product and Service markets recognizes with certification two levels of marketer.

- **Certified Marketer:** has successfully completed:
 - Value-Based Marketing for Profitable Growth
 - Market with Intelligence
 - One other Marketing and Sales Academy for B2B Product and Service Markets workshop
- **Master Marketer:** has successfully completed an additional three workshops from:
 - Market with Intelligence
 - Targeting the Right Customers
 - Creating Customer Value
 - Differentiation and Pricing Strategies
 - Customer Value Management
 - Key Account Management
 - Implementation and Measurement – Making Things Happen

These achievements are recognized by an attractive framed certificate, acknowledged by leading industry organisations.

Your Academy

We can bring the Academy to your company. For companies with 4 or more participants you can have your own Academy workshops at the location of your choice.

Tailor-Made In-House Workshops

For companies with 4 or more potential participants. The Academy will design tailor-made Marketing workshops to meet your specific needs. These workshops offer the ability to learn and apply the marketing concepts and tools directly to your own business and market situations in a 'hands-on' workshop environment led by our expert facilitators.

Our tailored workshops can also include direct handling of current marketing issues and challenges during the workshop sessions.

Following Through to Results

Our standard practice is to follow-up with participants after the workshops and help them to really implement what they learned and convert it into better business results. There are none who emulate this service.

Please contact us to discuss your specific needs.

At the Academy we are constantly looking to improve our programme so please contact us if you have a need for specific subjects not already mentioned in our programme.

Also look out for new workshops on

- Key Account Management
- Branding and Positioning
- Channel Strategies
- Process Communication

and much more...

Keep an eye on our website for the latest news on our workshops and faculty
www.marketability.org/academy.htm

Innovation for Competitive Advantage and Value Creation

A one day workshop to learn and apply a practical innovation tool:

- Idea generation
- Idea prioritisation
- Idea classification
- Idea evaluation
- Idea selection
- Idea optimisation
- Idea commercialisation

Innovation is a continuous process and has to be encouraged and led by management

Inventions mostly happen unforeseen and at random...

Innovations, however, can be managed through structured innovation processes.

Who should attend:

Senior and middle managers in business development, marketing, strategic planning R & D and logistics. Especially, those working in businesses searching for creative ideas for new products and services that will create business value and competitive advantage.

What will I learn

Discover a new and practical approach to Business-Innovation, that will help you enhance creative thinking in your company. A practical exercise will make you familiar with an innovation process by which creative ideas for a sustainable business can be created, evaluated for various criteria and prioritised for future development. You will learn how you can apply this process in your own working environment.

You should be interested in this seminar if...

- Your current products are no longer competitive in the market place
- You need to improve the profitability of your company or business
- Innovation is lacking in your company or if the product pipeline is empty
- Your markets are declining and you want to search for new market opportunities
- You would like to re-orient your business in the direction of services

For more background visit www.innovations-radar.com

Process Selling Seminar® Building Business through Professional Selling

'If you want them to listen to what you say, talk their language' Taibi Kahler, Ph.D.

A three day workshop to learn and apply the principles of the Process Communication Model® in Selling.

- Six different Sales Perceptions
- Six Personality Types
- Personality Parts
- Communication Channels
- Personality Structure
- Personality Phase
- Sales Motivators: psychological needs
- Personality Phase & Sales Motivators
- Determining your customers' phase
- Customer's phase
 - Selling Keys
 - Attributes
 - Amenities
 - Attitudes
- Customer Distress Sequences
- How to deal with Customers in distress
- Salespeople are human too ...
- How to keep yourself out of distress
- How not to sabotage your own sales

Who should attend:

Commercial, Sales and KAM- Managers wishing to increase sales, profitability and customer loyalty through communicating more effectively with different personality types of customers.

What will I learn

You will learn how to manage productive communication with your customers: how to assess quickly your clients perceptions and favored communication channels, how to recognise their psychological needs and their sales motivators, how to deal with customers in distress. (Although not all objections come from distressed customers, all distressed customers will give you objections.) How to use your own personal resources to stay charged up and ready to sell effectively.

Led by a certified PCM® Trainer

Discover the power and impact of successful, professional selling through the skillful application of the Process Communication Model™.

Key Values:

- Increased Sales and increased profitability
- More effective interaction and communication with customers
- Higher rate of satisfied customers
- Higher customer retention rates and increased customer loyalty
- More motivated Sales People

Includes own individualized profile.

For more information visit: www.avanti-project-solutions.com

Process Communication Management Seminar® Improved Quality, Value, Profitability, Satisfaction

'If you want them to listen to what you say, talk their language' Taibi Kahler, Ph.D.

A three day workshop to learn and apply the principles of the Process Communication Model® in Management.

- Six Perceptual Modes
- Six Personality Types
- Management Styles
- Communication Channels
- Motivational Needs
- Personality Structure
- Personality Phase
- Work environment preferences
- Relationship Compatibilities
- Distress Sequences
- Behaviours in mild and serious distress of the 6 personality types.
- Predict potential Management/Interaction Success or Failure patterns under stress.
- Provide intervention points for failure patterns.
- Achieving Consensus using PCM Concepts.
- Development of Management Plans

Who should attend:

Marketers, Product & Business Managers, Commercial and Sales managers, Managers & Entrepreneurs, wishing to better understand, motivate and communicate with others and build a firm behavioral, management and interaction foundation.

What will I learn

You will learn how to use a process approach, connect with your employees and colleagues and communicate and motivate each person individually. Learn your strengths and areas to work on to become more effective. How to keep out of distress and how to deal with others who may be in distress.

Led by a certified PCM® Trainer

The seminar offers business people a firm behavioural, management and interaction foundation.

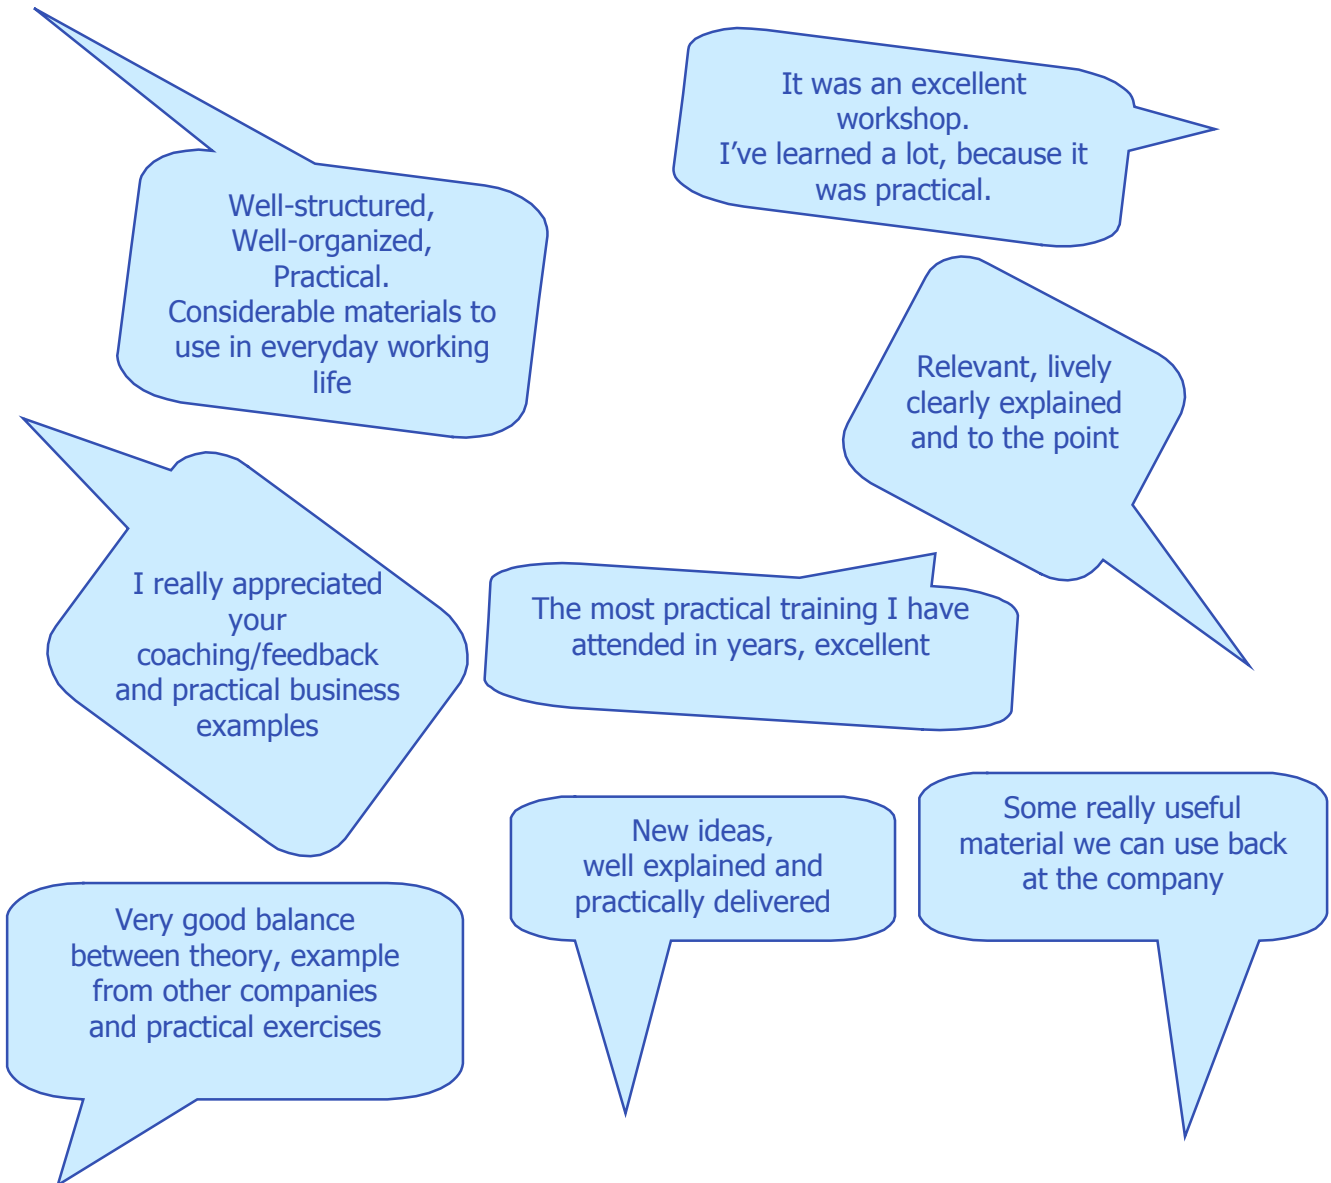

Key Values:

- Higher levels of skills in working with managing others
- Higher levels of motivating individuals and teams leading to increased effort and output
- Increased employee satisfaction and morale
- Increased degree of employee suggestions or involvement
- Increase in employee retention and reduced absenteeism

Includes own individualized profile.

Comments from previous delegates:

Well-structured,
Well-organized,
Practical.
Considerable materials to
use in everyday working
life

It was an excellent
workshop.
I've learned a lot, because it
was practical.

Relevant, lively
clearly explained
and to the point

I really appreciated
your
coaching/feedback
and practical business
examples

The most practical training I have
attended in years, excellent

Very good balance
between theory, example
from other companies
and practical exercises

New ideas,
well explained and
practically delivered

Some really useful
material we can use back
at the company

Companies who have participated in previous workshops include:

Akzo Nobel, BASF, BP Chemicals, Ciba Speciality Chemicals, Degussa Hüls AG, Dow Chemical, Dow Corning, DSM, Dynea, ESHA, FMC, Kemira, Lonza, Lubrizol, Montell Polylefins, Nova Chemicals, Pharmacia & Upjohn, Shell Chemicals, SRI International, thermPhos, Tiszachem, Total Fina, Townsend Tarnell, UCB, Uniqema.
