

Marketability
Marketing Seminars and Workshops
For B2B Product and Service Markets
from the Third Eye Academy

A series of practical marketing workshops for new and experienced marketers in B2B Product and Service Markets, designed to give you practical marketing know-how that you can implement.

Third Eye Academy

Third Eye Academy offers a series of workshops developed by Marketability for B2B Product and Service markets with a high proportion of practical learning opportunities, following the principle of:

Learn ➡ **Practice** ➡ **Apply** ➡ **Implement**

- » **Learn** the concept, model or tool.
- » See how others have **practiced** its application successfully.
- » **Apply** the concept, model or tool to your own business.
- » Decide how you can **implement** it in your business.

Marketability workshops are designed specifically for new and active marketers; they are led by experts with practical experience.

Third Eye Academy offers:

- » A range of workshops designed to meet the needs of those new to marketing, those from a non-marketing background and those who are experienced marketers.
- » Workshops run by marketing experts with hands-on experience.
- » Case studies from your industries and other relevant markets.
- » Take away check lists, computer tools and other marketing models.

Marketability workshops for B2B Product and Service Markets recognize with certification two levels of marketer:

- » **Certified Marketer:** Having successfully completed:
 - Value Based Marketing for Profitable Growth.
 - Market with Intelligence.
 - One other Marketability workshop for B2B Product and Service Markets.
- » **Master Marketer:** Having successfully completed an additional three workshops from:
 - Market with Intelligence.
 - Targeting the Right Customers.
 - Creating Customer Value.
 - Differentiation and Pricing Strategies.
 - Customer Value Management.
 - Key Account Management
 - Implementation and Measurement – Making Things Happen.

These achievements are recognized by an attractive framed certificate, acknowledged by leading industry organizations.

Your Academy

We can bring the Third Eye Academy to your company. For companies with 4 or more participants you can have your own Academy workshops at the location of your choice.

Tailor-Made In-House Workshops

For companies with 4 or more potential participants, Third Eye Academy will design tailor-made marketing workshops to meet your specific needs. These workshops offer the ability to learn and apply the marketing concepts and tools directly to your own business and market situations in a “hands-on” workshop environment led by our expert facilitators.

Our Tailored workshops can also include direct handling of current marketing issues and challenges during the workshop sessions.

Following Through to Results

Our standard practice is to follow-up with participants after the workshops and help them to really implement what they learned and convert it into better business results. There are none who emulate this service.

Please contact us to discuss your specific needs.

At the Third Eye Academy we are constantly looking to improve our programmes so please contact us if you have a need for specific subjects not already mentioned in our current programmes.

Also look out for new workshops on:

- Key Account Management.
- Branding and Positioning.
- Channel Management.
- Process Communication.

and much more...

Keep an eye on our website for the latest news on our workshops and faculty
www.third-i.biz/academy.htm

Comments from previous MarketAbility Workshop delegates:

Well-structured,
Well-organized, Practical.
Considerable materials to
use in everyday working life.

It was an excellent
workshop!
I've learnt a lot,
because it was so
practical.

Relevant, lively,
clearly
explained and
to the point!

I really appreciated your
coaching/feedback and
practical business
examples.

The most practical training I have
attended in years. Excellent!

New ideas, well explained
and practically delivered.

Some really useful
material we can use back
at work!

Very good balance
Between theory, example
From other companies &
practical exercises.

Companies who have participated in previous MarketAbility workshops include:

Akzo Nobel, BASF, BP Chemicals, Ciba Speciality Chemicals, Degussa AG, Dow Chemical, Dow Corning, DSM, Dynea, ESHA, FMC, Kemira, Lonza, Lubrizol, Montell Polylefins, Nova Chemicals, Pharmacia & Upjohn, Shell Chemicals, SABIC, SRI International, ThermPhos, Tiszachem, Total Fina, Townsend Tarnell, UCB, Uniqema.

Third Eye Affiliates

MarketAbility is a global marketing excellence and customer value management practice based in Zurich, Specialising in B2B and B2B2C markets and complex value chains. Since 1997, MarketAbility has delivered a wide range of practical marketing, sales and customer value management workshops for public and in-house audiences.

MarketAbility programmes are run by a team of expert practitioners, all of whom have at least fifteen and up to thirty years of practical experience in marketing and commercial management positions with leading blue chip global players."

MarketAbility delivers results in the form of improved business quality and profitability through learning applied at the customer interface. More than five thousand participants from over one hundred and fifty client companies have benefited from MarketAbility's practical learning programmes over the past eight years.

Many have supplemented their learning by reading the book of which Phil Allen, CEO of MarketAbility is co-author - "Value-Based Marketing for Bottom-Line Success: 5 Steps to Creating Customer Value", ISBN 0-07-139656-X. De Bonis, Balinski & Allen, published December 2002 by McGraw-Hill with the American Marketing Association.

MarketAbility has developed a unique diagnostic tool to evaluate and benchmark the performance of companies and business units on Customer Value Management, based on the five-step Pentadigm CVM model featured in the book.

Phil Allen is a regular contributor of articles to various specialist and industry journals, writing mainly about Customer Value Management, customer and market segmentation, differentiation and pricing strategies.

Innovation for Competitive Advantage & Value Creation

A one day workshop to learn how to apply a practical innovation tool:

- Idea Generation
- Idea Prioritisation
- Idea Classification
- Idea Evaluation
- Idea Selection
- Idea Optimisation
- Idea Commercialisation

Innovation is a continuous process and has to be encouraged and led by management.

Inventions mostly happen unforeseen and at random...

Innovations, however, can be managed through structured innovation processes.

Who should attend?

Senior & middle management in business development, marketing, strategic planning, R&D, and logistics; especially those working in businesses searching for creative ideas for new products & services, that will create business value & competitive advantage.

What will I learn?

Discover a new & practical approach to Business Innovation, which will help you enhance creative thinking in your organization; a practical exercise will make you familiar with an innovation process by which creative ideas for a sustainable business can be created, evaluated for various criteria & prioritised for future development. You will learn how you can apply this process in your own working environment.

Led by expert marketing practitioners

You should be interested in this seminar if...

- Your current products are no longer competitive in the market place
- You need to improve the profitability of your company or business
- Innovation is lacking in your company or if the product pipeline is empty
- Your markets are declining and you want to search for new market opportunities
- You would like to re-orient your business in the direction of services
